Data in Many Forms ...

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

Des données sous plusieurs formes ...

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordiolingue et le système d'extraction de Statistique Canada.

INTRODUCTION

This publication provides in one volume data on fall enrolment in Canadian universities for the 1984-85 academic year (Series A) and on degrees, diplomas and certificates awarded by these institutions during the 1984 calendar year (Series B). Prior to 1976 these statistics were presented in two separate publications: Catalogue 81-204 for enrolments and Catalogue 81-211 for graduations.

It is important to note that the figures which appear in the enrolment tables are in fact student "head counts" as of December 1st in all the provinces except Ontario where the reference date is November 1st, whereas the figures in the graduation tables could justifiably be termed "qualification counts" for the calendar year ending in December. To elaborate, this means that each student who attends a university in the fall session is counted only once annually, regardless of the number of programs in which the student is enrolled; but at graduation it is the number of degrees, diplomas and certificates awarded that are counted, not the individual students who received them. Hence, a student in a joint M.B.A./L.L.B. program would be counted only once each year for the enrolment survey but upon graduating, the two degrees the student receives would be included in the graduation survey.

The names of the institutions reporting to Statistics Canada are shown in Tables 5 and 6 for the enrolment survey and Table 19 for the graduation survey. In each case, affiliated institutions are denoted by indentation. Data for affiliated colleges not listed in these tables are invariably incorporated in the parent institution's figures. In the case of the **Université du Québec**, however, there is no parent institution per se; all branches simply add up to the total for the institution. This is denoted by italicizing **Université du Québec** in Tables 5, 6 and 19.

The enrolment and the graduation tables presented in this publication are the product of two separate surveys conducted by Statistics Canada. Each of these surveys covers all degree-granting institutions. Respondents have the option of submitting either aggregated data on forms or individual student or graduation data on computer tapes or code

La présente publication fournit en un seul volume des données sur les inscriptions d'automne dans les universités canadiennes pour l'année scolaire 1984-85 (la série A), ainsi que sur les grades, diplômes et certificats décernés par ces établissements pendant l'année civile 1984 (la série B). Avant 1976, ces statistiques paraissaient dans deux publications distinctes: le n° 81-204 au catalogue pour ce qui est des inscriptions et le n° 81-211 au catalogue pour les grades.

Il est important de noter que les chiffres qui figurent dans les tableaux sur les inscriptions représentent en fait le nombre réel d'étudiants au 1^{er} décembre dans toutes les provinces sauf l'Ontario où la date de référence est le 1^{er} novembre, tandis que ceux des tableaux sur les grades représentent le nombre de titres décernés durant l'année civile qui se termine en décembre. Plus précisément, cela signifie que chaque étudiant qui fréquente une université à l'automne est compté seulement une fois l'an, peu importe le nombre de programmes auxquels il est inscrit; mais, à la collation des grades, c'est le nombre de grades, de diplômes et de certificats décernés qui est pris en compte et non le nombre d'étudiants qui les reçoivent. Donc un étudiant inscrit à la fois à un programme de licence et de baccalauréat est dénombré seulement une fois l'an dans l'enquête sur les inscriptions, mais à la fin du programme, ce sont les deux grades qu'il reçoit qui sont pris en compte dans l'enquête sur les grades.

Le nom des établissements qui ont présenté une déclaration à Statistique Canada figure aux tableaux 5 et 6 dans le cas de l'enquête sur les inscriptions et au tableau 19 en ce qui concerne l'enquête sur les grades décernés. Dans chaque cas, les établissements affiliés sont en retrait. Les données des collèges affiliés dont le nom ne se trouve pas dans les listes figurent toujours dans le total de l'établissement auquel ils sont rattachés. Dans le cas de l'Université du Québec, cependant, il n'existe pas d'établissement principal; les chiffres de chaque constituante sont additionnés pour former le total de l'établissement. Pour cette raison, le terme "Université du Québec" est en italique aux tableaux 5, 6 et 19.

Les tableaux sur les inscriptions et les grades décernés contenus dans la présente publication proviennent de deux enquêtes distinctes menées par Statistique Canada auprès de tous les établissements qui décernent des grades au pays. Chacun de ces établissements fait une déclaration annuelle à Statistique Canada soit sous forme de données globales au moyen de formulaires, soit

sheets. A data base, called the University Student Information System - (USIS-Enrolment and USIS-Degrees) is then created by putting together the records from all the tapes, code sheets and forms submitted by institutions.

With the two USIS data files available, it is possible for users to obtain special request tabulations apart from those found in this publication. For example, data can be distributed at a finer level or cross-classified in a variety of ways. Furthermore, the USIS - Enrolment file offers a number of characteristics of students not presented in the tables of this publication such as duration of program of study, expected year of completion and previous year's activity.

sous forme de données individuelles, par étudiant ou par diplôme, sur bandes d'ordinateur ou sur feuilles de codage. À partir de ces données, Statistique Canada établit une base de donnée appelée "Système d'information statistique sur la clientèle universitaire" (Fichier des inscriptions SISCU et Fichier des grades SISCU) en réunissant les données contenues dans toutes les bandes, feuilles de codage et formulaires envoyées par les établissements.

Les deux bases de données du SISCO permettent aux utilisateurs d'obtenir des tableaux spéciaux ne figurant pas dans la présente publication, par exemple des données décomposées à un niveau plus détaillé ou regroupées de différentes façons. Le fichier des inscriptions SISCO offre de plus un certain nombre de renseignements non publiés sur les caractéristiques des étudiants, portant entre autres sur la durée du programme d'étude, l'année prévue pour l'achèvement du programme et la principale activité de l'étudiant durant l'année précédente.

NOTES OF CAUTION

Since the Master's of Divinity degree is usually just a step on the road to a Master's of Theology, it has been decided that from 1979-80 on it will be counted as a first professional degree rather than a master's degree. This will account for an increase in the bachelor and first professional degree level in theology and a decrease at the master's level.

Starting with the 1980 publication, all enrolment tables include medical interns and residents and "non-university" students (technology or special interest courses not leading to a university degree, diploma or certificate). Interns and residents are included in the full-time graduate level and "non-university" students are incorporated in the "Other" category of the undergraduate level. Therefore:

"undergraduate" includes all undergraduate qualifications sought as well as preliminary or upgrading year, non-university, special auditing and all other undergraduate courses not taken for the purpose of obtaining a qualification;

"graduate" includes all graduate qualifications sought as well as master's qualifying year, special auditing, interns and residents and all other graduate courses not taken for the purpose of obtaining a qualification.

The term "non-Canadian" is used to denote students who do not possess Canadian citizenship. It includes, therefore, both landed immigrants and persons with a student or other visa.

There is no commonly accepted definition of a part-time student and as a result Statistics Canada reports full-time or part-time registration status as supplied by each reporting institution.

AVERTISSEMENTS

Comme le grade **Master's of Divinity** n'est qu'une étape dans l'obtention d'une maîtrise en théologie, il a été décidé qu'à partir de 1979-80 il serait compté comme un premier grade professionnel au lieu d'une maîtrise. Ce changement aura l'effet d'augmenter le nombre de baccalauréats et de premier grades professionnels en théologie et de diminuer le nombre de maîtrises en théologie.

À partir de 1980, tous les tableaux sur les inscriptions tiendraient compte des internes, des résidents et des étudiants de "niveau non-universitaire" (cours en technologie ou d'intérêt spécial qui n'aboutissent pas à un grade, diplôme ou certificat universitaire). Les internes et les résidents sont inclus dans les niveaux du 2^e et 3^e cycles à plein temps et les étudiants du "niveau non-universitaire" figurant dans la catégorie "autres" du 1^{er} cycle. Donc:

par "1^{er} cycle", on entend tous les cours de 1^{er} cycle suivis pour l'obtention d'un titre ainsi que les études préliminaires ou de rattrapage, les études de niveau non-universitaire, les auditions libres et tous les autres cours de 1^{er} cycle non suivis pour l'obtention d'un titre;

par "2^e et 3^e cycles", on entend tous les cours du 2^e et 3^e cycles suivis pour l'obtention d'un titre ainsi que les inscriptions à une année préparatoire de maîtrise, les auditions libres, les internes et les résidents et tous les autres cours du 2^e et 3^e cycles non suivis pour l'obtention d'un titre.

Le terme "non-Canadien" sert à désigner les étudiants qui ne possèdent pas la citoyenneté canadienne. Il englobe donc les immigrants reçus et les titulaires d'un visa d'étudiants ou de tout autre visa.

Il n'existe aucune définition d'étudiant à temps partiel qui soit acceptée et reconnue par tous; chaque établissement déclarant a donc été libre de définir lui-même les notions de fréquentation à plein temps et à temps partiel.

University transfer students studying in community colleges in Saskatchewan, Alberta, British Columbia, Yukon and Northwest Territories and CEGEP students in Quebec are not included in this publication. They should be taken into consideration, however, in the calculation of indicators such as participation rates. A distribution of full-time transfer program students by province and territory for fall 1984 follows:

Les étudiants provenant de l'Alberta, de la Colombie-Britannique, du Saskatchewan, du Yukon et du Territoire Nord-Ouest ainsi que les étudiants du CEGEP au Québec ne sont pas pris en compte dans la présente publication. Ils doivent, cependant, être pris en considération dans le calcul de certains indicateurs comme le taux de participation universitaire. La répartition des étudiants inscrits à plein temps à des programmes menant à l'université par province et territoire à l'automne 1984 figure ci-dessous:

HIGHLIGHTS

Enrolment

Full-time university enrolment reached a new high in 1984 of over 460,000 eclipsing last year's high of 450,000. Declining enrolments in 1977 and 1978 have been offset by gains since 1979. The growth trend evident in these recent years has already been confirmed as continuing, with increases evident in 1985-86 from a preliminary analysis of the data for that year.

POINTS SAILLANTS

Inscriptions

Les effectifs universitaires à plein temps ont de nouveau augmenté en 1984 atteignant plus de 460,000 étudiants, en hausse par rapport au chiffre élevé de 450,000 enregistrés l'année dernière. La diminution des inscriptions en 1977 et en 1978 a été annulée par les augmentations observées depuis 1979. La tendance à la croissance qui était évidente ces dernières années s'est poursuivie, comme l'a confirmé l'analyse préliminaire des données, en 1985-86.

Since 1970, full-time undergraduate enrolment has increased by 47% while full-time graduate enrolment has gone up by 64%. Increases in part-time credit enrolment have been much more dramatic with increases of 71% and 138% for undergraduate and graduate respectively. These variations are also evident in Figure 1 which presents a comparison of growth indices using 1970 as a base year.

Depuis 1970, les effectifs à plein temps du 1^{er} et des 2^e et 3^e cycles ont progressé respectivement de 47% et de 64%. Les inscriptions d'étudiants à temps partiel à des cours dotés de crédits ont grimpé de façon beaucoup plus forte: de 71% et de 138% respectivement pour le 1^{er} et pour les 2^e et 3^e cycles. La figure 1, qui compare les indices de croissance en utilisant 1970 comme année de base, fait également ressortir ces variations.

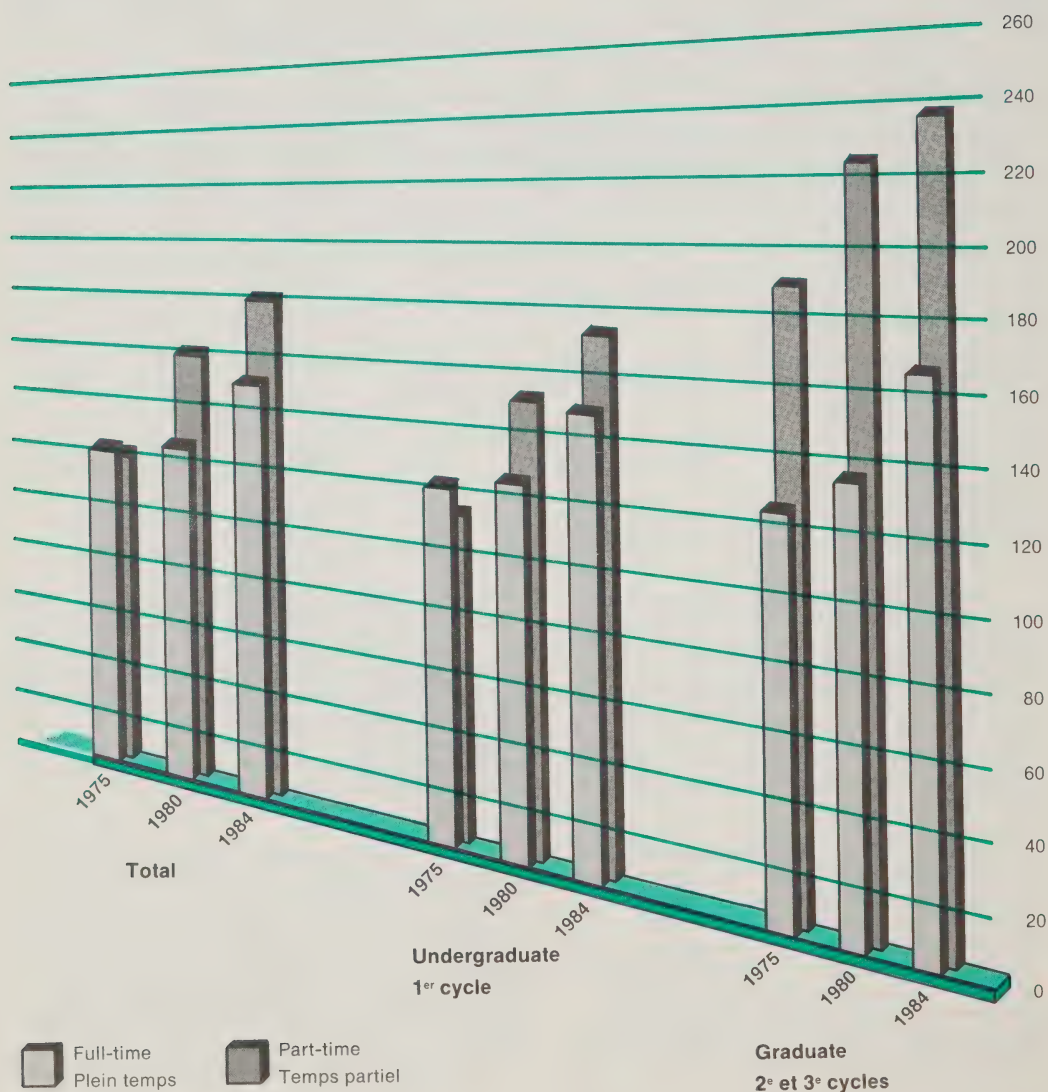

Patterns of enrolment change are quite different, however, for each of the major fields of study (Text Table II and Figure 2). The social sciences made the highest gains in absolute terms: 77,500 full-time students and 53,000 part-time. Substantial gains of 15,500 to 18,500 full-time and 5,000 to 12,000 part-time were also made in the fields of engineering, the health professions and mathematics/physical sciences. While education enrolment

L'évolution des effectifs varie cependant beaucoup d'un domaine d'étude à l'autre (voir le tableau explicatif II et la figure 2). Les sciences sociales affichent, en nombres absolus, les plus forts gains de 77,500 étudiants à plein temps et de 53,000 à temps partiel. Le génie et les professions de la santé ont aussi enregistré de fortes augmentations de 15,500 à 18,500 étudiants à plein temps et de 5,000 à 12,000 à temps partiel. La tendance en éducation n'indique pas de grand changement

tended to remain almost the same at the full-time level, it did gain 13,500 part-time students. As can be observed in Figure 2, the growth in part-time enrolment has been phenomenal, especially in fine arts, mathematics/physical sciences, health professions and agriculture/biological sciences where enrolment has increased between four and sixfold. Fine arts and the social sciences have also exhibited substantial growth in full-time enrolments. Since 1970, fine arts grew by 165% and the social sciences by 135%.

dans les inscriptions à plein temps, alors qu'il y a eu un gain 13,500 étudiants à temps partiel. Comme l'indique la figure 2, les effectifs à temps partiel ont grimpé de façon phénoménale, surtout dans les domaines des beaux-arts, des sciences agricoles et biologiques, des mathématiques et sciences physiques et dans les professions de la santé où le nombre d'étudiants est maintenant entre quatre et six fois plus élevé. Les beaux-arts et les sciences sociales ont également affiché une forte hausse des inscriptions à temps plein, celles-ci ayant augmenté de 165% et de 135% respectivement depuis 1970.

At the provincial level, the magnitude of change in full-time and part-time enrolment has not been nearly as dramatic as the changes observed for fields of study at the national level. Steady growth has occurred only in Quebec and Ontario where for each province the increase in both full-time and part-time enrolment since 1970 has been 39,000 and over. Full-time enrolment has not grown substantially in the other provinces.

La variation des effectifs est forte mais pas aussi marquée au niveau des provinces. La croissance n'a été constante qu'au Québec et en Ontario, où les effectifs à plein temps et à temps partiel ont augmenté de 39,000 chacun, sinon plus. Les effectifs à plein temps n'ont pas augmentés autant dans les autres provinces. Quant aux effectifs à temps partiel, ils ont augmentés considérablement (3,500 à 12,000) dans la plupart des provinces, surtout en Colombie-Britannique.

1970=100

As for part-time enrolment, there has been a sizeable increase (3,500 to 12,000) in most of the provinces and especially in British Columbia. Relatively speaking, the provinces which made the highest gains in part-time enrolment were British Columbia increasing threefold, Saskatchewan one and a half times and Alberta, Manitoba and Nova Scotia doubling since 1970 (Figure 3).

Degrees, Diplomas and Certificates

The number of university qualifications granted in 1984 was 126,500 some 4,000 more than the previous year. The index of growth since 1970 (base year = 100) peaked in 1978 at 154, dropped to 150 within the following two years (Figure 4) then peaked again in 1984 at 165. This trend has been much more pronounced for females than for males. In fact, after a slight decline in 1980, the number of female graduates has more than doubled since 1970 while the male growth index only went up to 130. This pattern is even more dramatic at the graduate level with the growth index for females going up to 322 as compared to only 126 for males. The year under review marks the fourth consecutive year that the total number of females receiving qualifications has surpassed the number of males (62,500 compared to 63,500). The number of females receiving graduate qualifications is, however, still lower.

Toute proportion gardée, les provinces dont les effectifs à temps partiel ont enregistré les plus forts gains étaient la Colombie-Britannique (trois fois plus), Saskatchewan (une fois et demi de plus) et l'Alberta, le Manitoba et la Nouvelle-Écosse où ils ont doublé depuis 1970 (voir la figure 3).

Grades, diplômes et certificats

En 1984, 126,500 grades, diplômes et certificats universitaires ont été décernés, une augmentation de 4,000 sur l'année dernière. L'indice de la croissance depuis 1970 (année de base = 100) a atteint le sommet de 154 en 1978 avant de retomber à 150 au cours des deux années suivantes (figure 4) pour atteindre cette année un nouveau sommet à 165. Cette tendance est beaucoup plus marquée chez les femmes que chez les hommes. En fait, après un faible déclin en 1980, le nombre de diplômées a plus que doublé depuis 1970. L'indice chez les hommes n'atteint que 130. Cette tendance est encore plus prononcée au niveau des deuxième et troisième cycles où l'indice de croissance du nombre d'étudiantes a atteint 322 alors que celui des étudiants s'élevait à seulement 126. En terme absolu, cette année marque la quatrième année consecutive où le nombre total d'étudiantes recevant leur grade a dépassé celui des étudiants (62,500 comparé à 63,500 pour les hommes). Le nombre de diplômées au niveau des deuxième et troisième cycles est, cependant, encore moindre.

Looking at the data for qualifications granted by field of study confirms certain recent observations, namely a shift from the liberal arts to the science fields. Despite overall declines between 1978 and 1981, the social, pure and applied sciences have actually continued their growth with the social science graduations more than doubling since 1970, reaching 44,500 by 1984. This generalization, however, warrants a word of caution. The increase in the above fields of study since 1970 is due primarily to a few popular subjects: business and commerce quadrupling, engineering up 90% and computer science increasing sixfold.

L'examen des données sur les titres décernés par discipline confirme certaines observations récentes, notamment un déplacement vers les sciences au détriment des arts. Malgré une baisse générale entre 1978 et 1981, les sciences sociales, les sciences pures et les sciences appliquées continuent à attirer un nombre croissant d'étudiants; ainsi, le nombre de diplômés en sciences sociales a plus que doublé depuis 1970, pour atteindre 44,500 en 1984. Il ne faudrait tout de même pas généraliser puisque cette augmentation est due en grande partie à l'attrait de quelques disciplines: l'administration des affaires et commerce a quadruplé, le génie a augmenté de 90% et l'informatique a atteint un niveau six fois plus haut.

These changes can also be observed from a different perspective. The proportion of graduations by discipline has changed since 1970. The social sciences used to make up 24% of total graduations; this proportion has now gone up to 35%. Small gains have also been made in education, agriculture, engineering, fine arts and related fields. The above growth in proportionate share of graduations has mostly been made at the expense of the humanities and the non-specialized category.

The number of graduations has remained relatively unchanged since 1970 in most of the provinces with the exception of Ontario and Quebec (up 77% and 89%, respectively). Quebec was the only province registering declines over the last two years.

Ces variations peuvent également être observées sous un angle différent. Le nombre de titres décernés selon la discipline a changé depuis 1970. D'habitude 24% des titres étaient décernés dans le domaine des sciences sociales; cette proportion est passée à 35%. Bien que l'éducation, l'agriculture, le génie, les beaux-arts et les domaines connexes aient fait des gains minimes, l'accroissement, dont il est fait état ci-dessus dans la proportion des titres décernés s'est en grande partie produit aux dépens des humanités et des diplômes divers non spécialisés.

Pour la plupart des provinces le nombre de diplômes décernés est demeuré relativement stable depuis 1970, à l'exception de l'Ontario, du Québec (ayant subi des hausses respectives de 77% et 89%). Le Québec est cependant la seule province qui a connu une baisse durant les deux dernières années.

APPENDIX I

CLASSIFICATION OF DEGREES, DIPLOMAS AND CERTIFICATES

APPENDICE I

CLASSIFICATION DES GRADES, DIPLÔMES ET CERTIFICATS

| | Classification | Criteria - Critères |
|---|---|---|
| Degrees – Grades | | |
| Bachelor degrees – Baccalauréats | Undergraduate, Bachelor and first professional – Premier cycle, baccalauréat et premier grade professionnel | All Bachelor degrees, whether a first degree, professional or general are included in this group. Thus a B.Th. or B.Ed. requiring a prior Bachelor degree are included with this group. – Comprend tous les baccalauréats du 1 ^{er} cycle, professionnel ou général. Ainsi, un B.Th. ou un B.Éd., qui exige un premier baccalauréat, fait partie de ce groupe. |
| First professional (neither Bachelor nor Master) e.g., M.D., D.M.D., D.D.S., D.V.M. – Premier grade professionnel (à l'exclusion du baccalauréat et de la maîtrise) c.-à-d., M.D., D.M.D., D.D.S., D.M.V. | Undergraduate, Bachelor and first professional – Premier cycle, baccalauréat et premier grade professionnel | All professional degrees which are neither Bachelors nor Masters are counted in this category. – Comprend tous les grades professionnels autres que le baccalauréat ou la maîtrise. |
| Licences | Some undergraduate, some graduate – Certains étudiants du premier cycle, certains étudiants du deuxième cycle | Those licences which follow a degree in the same field of study are considered equivalent to a Master, except for the Licences en Sciences Comptables from Université Laval which are classified with graduate diplomas. All others are included at the undergraduate level as equivalent to a Diploma or Certificate. – La licence obtenue à la suite d'un premier grade dans la même discipline est considérée comme l'équivalent de la maîtrise à l'exception des Licences en Sciences Comptables de l'Université Laval qui sont classées avec les diplômes supérieurs. Toutes les autres appartiennent au 1 ^{er} cycle et sont l'équivalent du baccalauréat. |
| Masters – Maîtrises | Graduate – Deuxième cycle | All Masters, whether first professional such as M.S.W. or M.L.S., are included in this group. – Comprend toutes les maîtrises, notamment les premiers grades professionnels comme la maîtrise en service social ou la maîtrise en bibliothéconomie. |

CLASSIFICATION OF DEGREES, DIPLOMAS AND CERTIFICATES – Continued

CLASSIFICATION DES GRADES, DIPLÔMES ET CERTIFICATS – suite

| | Classification | Criteria - Critères |
|---|-------------------------------|--|
| Degrees – Concluded – Grades – fin | | |
| Doctorates (Ph.D., D.Ed., etc.) – Doctorats (Ph.D., D.éd., etc.) | Graduate – Troisième cycle | Only earned Doctorates are included in these statistics. – Ne comprend que les doctorats acquis. |
| Diplomas or certificates – Diplômes ou certificats | | |
| Diploma or certificate – Diplôme ou certificat | Undergraduate – Premier cycle | <p>All diplomas and certificates awarded by degree-granting institutions for courses of study sanctioned by a diploma or certificate and not a degree, if the entry conditions to the course of study are similar to those for degree candidates. Example: Diploma in Dental Hygiene, diploma in Physiotherapy, etc. There are a few diplomas of a non-university level, such as Lakehead's technology diplomas that are also classified in this group. – Tous les diplômes et certificats décernés par les universités ou les collèges à la suite de cours sanctionnés par un diplôme ou un certificat et non par un grade, si les conditions d'inscription au cours sont analogues à celles qu'on exige des étudiants inscrits en vue d'un grade. Exemples: diplôme en hygiène dentaire, diplôme en physiothérapie, etc. Sont également compris au niveau du 1er cycle bon nombre de diplômes et de certificats décernés à la suite d'un cours dit d'extension. Quelques diplômes de niveau non universitaire, notamment le diplôme d'études techniques de Lakehead University sont également classés dans ce groupe.</p> <p>Diplomas and certificates following a first degree but in a different field of study from the first degree are included at the undergraduate level, e.g.: diplomas in Education following a general B.A. or B.Sc. – Les diplômes et certificats obtenus après un premier grade mais dans un domaine d'étude différent sont pris en compte au niveau du 1er cycle, par exemple, le diplôme en éducation obtenu à la suite d'un B.ès Arts ou B.ès Sciences générales.</p> |

CLASSIFICATION OF DEGREES, DIPLOMAS AND CERTIFICATES – Continued

CLASSIFICATION DES GRADES, DIPLÔMES ET CERTIFICATS – suite

| | Classification | Criteria - Critères |
|---|--|---|
| Diplomas or certificates – Concluded – Diplômes ou certificats – fin | | |
| Diploma or certificate – Concluded – Diplôme ou certificat – fin | Graduate – Deuxième et troisième cycles | <p>All diplomas or certificates following a first degree in the same field of study are classified at the graduate level. Thus a Diploma in Education following a B.Ed. is classified at the graduate level, whereas one following a general B.A. or B.Sc. is classified as under-graduate. – Tous les diplômes ou certificats obtenus après un premier grade dans un même domaine d'étude sont classés au niveau du 2^e cycle. Ainsi, le diplôme en éducation obtenu à la suite du baccalauréat en éducation est classé au niveau du 2^e cycle, alors que celui obtenu après le B.ès Arts ou B.ès Sciences générales est classé au niveau du 1^{er} cycle.</p> <p>All diplomas following a Masters are classified as graduate. All diplomas following a first professional degree are classified as graduate, such as diplomas in medical specializations following an M.D., or an engineering specialization following a B.Eng. or of Applied Science. – Tous les diplômes obtenus à la suite d'une maîtrise sont classés au niveau du 2^e cycle; de même pour les diplômes obtenus après un premier grade professionnel, par exemple, le diplôme de spécialisation médicale obtenu par un docteur en médecine, ou celui de spécialisation en génie civil obtenu par un ingénieur ou un diplôme en sciences appliquées.</p> |
| Registered Nurse Diplomas – Diplômes d'infirmière autorisée | Excluded – Non compris | R.N. Diplomas awarded by a degree granting institution through affiliated hospital schools have been excluded. – Les diplômes d'infirmière autorisée décernés par un établissement conférant des grades par l'entremise d'une école d'hôpital affiliée ne sont pas pris en compte. |
